

EpiVario to Present at BIOTECH SHOWCASE™ 2024

EpiVario is pioneering the development of novel therapeutics for substance use disorders

Philadelphia, PA, January 2, 2024 – EpiVario Inc., today announced that it is presenting at Biotech Showcase™ 2024. This year, registered attendees can view EpiVario's presentation live, and also access a recorded version beginning November 27th– SIX weeks prior to the actual event. With 24x7 on-demand access, attendees can view recorded presentations at their convenience when scheduling does not allow viewing during the main event week.

Thomas Kim, President & CEO will be presenting EpiVario Inc. at Biotech Showcase

Presentation Details:

Date: Wednesday, January 10, 2024

Time: 9:30AM

Track: Franciscan B (Ballroom Level)

Thomas Kim, CEO, will overview the company's strategy and progress to date, in the discovery and early development of novel small molecule inhibitors of Acetyl CoA Synthetase 2 (ACSS2), an enzyme which has recently been shown to play a critical role in the epigenetic regulation of long term memory formation. *In vivo* preclinical data suggests that such regulation has the potential to effectively address addiction behavior, and offers potential in a wide range of substance use disorders including opioid, cocaine, alcohol & nicotine addiction, and additionally PTSD.

Biotech Showcase, produced by Demy-Colton and EBD Group, is an investor conference focused on driving advances in therapeutic development by providing a sophisticated networking platform for executives and investors that fosters investment and partnership opportunities. The conference takes place each year in San Francisco during the course of one of the industry's largest gatherings and busiest weeks.

"We are delighted that EpiVario Inc. will be joining us in San Francisco and presenting at Biotech Showcase this year," said Sara Demy, CEO of Demy-Colton. "Biotech Showcase is a prime opportunity for life science entrepreneurs and investors to come together to discover the potential of innovative technologies that will drive the future of drug discovery."

ABOUT BIOTECH SHOWCASE

Biotech Showcase is an investor and networking conference devoted to providing private and public biotechnology and life sciences companies with an opportunity to present to, and meet with, investors and pharmaceutical executives in one place. Investors and biopharmaceutical

executives from around the world gather at Biotech Showcase during this bellwether week which sets the tone for the coming year. Now in its 16th year, this well-established, highly respected conference features multiple tracks of presenting companies, plenary sessions, workshops, networking, and an opportunity to schedule one-to-one meetings. Biotech Showcase is produced by Demy-Colton and EBD Group. Both organizations have a long history of producing high-quality programs that support the biotechnology and broader life sciences industry.

ABOUT EPIVARIO INC.

EpiVario is pioneering novel epigenetic therapeutics for the treatment of neuro-psychiatric disorders. Spun out of the Epigenetics Institute of The University of Pennsylvania, the company is developing pharmacotherapeutics that target a newly discovered epigenetic process in long term memory formation. By targeting this activity to modulate stress and drug-related memories, EpiVario is establishing a novel, differentiated, and highly effective approach to targeting addiction and treating substance use disorders.
